# 1. Introduction

Developments to our questionnaires reflect and drive best practice, and improve both data quality and the disclosure experience. Following the extensive changes in 2018, CDP has stabilized existing questionnaires for 2019 as much as possible.

This document includes two tables:

- ▼ The first indicates where 2019 questions differ from the 2018 questionnaire, due to a minor change, modification or a development.
- ▼ The second sets out the structure of the 2019 questionnaire, shows which questions form the minimum version of the questionnaire, and indicates the linkages between questions. It presents a list of the modules and questions.

The 2019 questionnaires, including sector questions and the reporting guidance can be viewed at <http://www.cdp.net/en/guidance>.

## Summary of 2019 changes to the general questionnaire

90% of the questions in the 2019 forests questionnaire have either no change or minor changes. Seven of the questions are modified from their 2018 counterparts. There is one new question in the Governance module. Definitions on key terms have been revised/included.

The figures opposite show the magnitude of changes within each module.

## Summary of 2019 changes to sector-specific questions

New sector questions for the metals & mining (MM) and coal (CO) sectors have been included.

2019 Changes: forests

## 2. 2018 to 2019 changes

This table indicates where the questionnaire has been revised/developed based on the 2018 questionnaire. (Note: revisions to character limits are not listed here)
